

Seminar for Parents & Teachers

Developing Creativity In Children

A mathemagically fascinating way to:

- Unleash Creativity • Stimulate Thinking •
- Improve Problem-solving Skills •
- Develop Self-confidence •

Date: 2 Aug 2009 (Sun)

Time: 2.00pm - 5.30pm

The Fun & Magical Way

In today's fast-changing competitive environment, creativity is definitely a key advantage. Developing our children's creativity enables them to develop their real potential and to maximize their effectiveness.

Workshop Outline

- ✓ Recognize that each child has his/her unique potential.
- ✓ Developing children's creativity potential based on the theory of multiple intelligences.
- ✓ Recognize the importance of creativity.
- ✓ Recognize the barriers to creativity.
- ✓ Practice the 5 steps to creativity.

Who Should Attend

- ✧ Parents/Teachers who deals with children below age 12
 - ⇒ Parents who want to bring up happy and creative children.
 - ⇒ Teachers who want to make their lessons more effective and interesting.
- ✧ Public speaker who are keen on capturing their audience with stimulating and thought-provoking tricks.
- ✧ Anyone who wants to improve his/her thinking abilities, problem-solving skills & creativity.

About the Trainer

Teoh Poh Yew is a dynamic and creative Mathematics educator who firmly believes that everyone can learn and enjoy this "dreaded" subject. With more than 20 years experience in this field, her passion lies in transforming Mathematics into a tool to develop children's creativity, enhance mathematical thinking skills and sharpen problem solving abilities. She inspires children to approach this subject with confidence and enthusiasm.

Poh Yew is also a very experienced international Trainer in the fields of creativity, Maths education, early childhood education and training of Trainers' programs. She conducts extremely innovative workshops for corporate leaders, teachers, Trainers, parents and students in 14 countries such as Malaysia, Singapore, China, Bulgaria, Denmark, United States, Germany, etc. She has also published 3 books on mathematical magic. She appears regularly on TV, radio, magazines and news papers to share her creative and magical approach in teaching and training.

Teoh Poh Yew
Mathematics Educator
Author & Trainer

Feedback for Poh Yew's Workshops

I first met Poh Yew at a conference in Mathematical Creativity in Bulgaria and was drawn to her work, not only because of her own very contagious enjoyment of mathematics but also because of her ability to explain the mathematical concepts behind the games and tricks to people with a wide range of mathematical backgrounds and interest. From children with their parents to professor of mathematics, all were drawn into her activities.

*Prof. Linda Sheffield (Regents Professor, Mathematics Education)
Northern Kentucky University, USA*

This is the most interesting maths course in my 24 years of service. I admire your courage and persistent in doing your work. Hope to attend another Maths course conducted by you. With the knowledge that you had imparted to us, I will try to apply them to my blind students. 3 days are not enough.

Mariana Yusuf, Sarawak

I'm really impressed with your creativity power. I've attended many kinds of workshops and this workshop was the most interesting one! I couldn't wait to show some of the magic tricks that just learnt to my 5 year old daughter. She was so impressed with "my" magic show. She enjoyed so much playing these cards and keep coming up with all kinds of games created by her creativity. Thanks for leading us and our next generations to the wonderful creative wizard world!

Elaine Tan, Kuala Lumpur

Registration Form

Workshop: **Developing Creativity in Children - The Fun & Magical Way**

Date: **2 Aug 2009 (Sun)**

Venue: IDC Group, E-10-25, Level 10, Menara Melawangi,
Amcorp Trade Centre, Petaling Jaya, Selangor
